Professional Summary

Aspiring Full Stack Developer with a strong academic foundation and hands-on experience building scalable web applications. Proficient in the MERN Stack (MongoDB, Express.js, React.js, Node.js), Java, and Python. Proven track record of delivering full-stack solutions and database management through targeted industry internships and AI-driven projects

Education

Master of Computer Applications (MCA)

SRM Valliammai Engineering College,
Kattankulathur

09/2024 – 05/2026

CGPA: 8.75

B.Sc. Computer Science with Cognitive Systems (B.Sc.)

Thiagarajar College, Madurai

06/2021 – 05/2024

CGPA: 9.08

Higher Secondary Certificate (HSC)

Rc Higher Secondary School, Silukuvarpatti

06/2020 – 03/2021

Percentage: 83.33%

Skills

Languages

Java, Python, JavaScript

Frontend

HTML, CSS, React.js

Backend

Node.js, Express.js

Database

MySQL, MongoDB

Tools

Git, GitHub, Postman

Certifications

Database Design (Oracle)

45-Days SQL Developer Internship at
Elevate Labs

Paper Publication

ISSN: 2456 - 8880 - IRE Journals

Professional Experience

Web Developer Intern

JB Soft System

01/2026 – 03/2026 | CHENNAI

- Developed responsive web pages and custom layouts to improve user experience.
- Optimized site performance by fixing backend bugs and updating core plugins.
- Worked with team members to deliver technical projects on time

SQL Intern

Elevate Labs

05/2025 – 06/2025 | Remote

- Completed a database development internship at Elevate Labs, working with MySQL to design and manage databases.
- Built a Sports Tournament Tracker to store and display match results, player scores, and team points.
- Gained hands-on experience in writing queries, creating views, and generating reports for data analysis.

Projects

AI-Powered News Bias Detection & Narrative Analysis

01/2026 – 04/2026

Technologies: React.js, Node.js, Supabase, NLP

- Developed a full-stack web application using React.js, Node.js, and Supabase to analyze news bias using NLP techniques.
- Built a real-time pipeline for news collection, preprocessing, and sentiment analysis.
- Designed REST APIs and an interactive dashboard for visualizing news sentiment and bias trends.

Morpho Chatter with Face Recognition

01/2024 – 05/2024

Technologies: Python, SQLite, HTML, CSS, JavaScript

- Developed chat app with face recognition authentication using OpenCV
- Implemented real-time image processing for secure login
- Designed user interface with database integration

Soft Skills

- Communication & Teamwork
- Problem Solving
- Analytical Thinking
